If, in addition, more specific legal bases are applicable in individual cases, we will inform you of these in the data protection declaration.

- **Performance of a contract and prior requests (Article 6 (1) (b) GDPR)** - Performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract.

## Security Precautions

We take appropriate technical and organisational measures in accordance with the legal requirements, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, in order to ensure a level of security appropriate to the risk.

The measures include, in particular, safeguarding the confidentiality, integrity and availability of data by controlling physical and electronic access to the data as well as access to, input, transmission, securing and separation of the data. In addition, we have established procedures to ensure that data subjects' rights are respected, that data is erased, and that we are prepared to respond to data threats rapidly. Furthermore, we take the protection of personal data into account as early as the development or selection of hardware, software and service providers, in accordance with the principle of privacy by design and privacy by default.

TLS encryption (https): To protect your data transmitted via our online services, we use TLS encryption. You can recognize such encrypted connections by the prefix https:// in the address bar of your browser.

## Transmission of Personal Data

In the context of our processing of personal data, it may happen that the data is transferred to other places, companies or persons or that it is disclosed to them. Recipients of this data may include, for example, service providers commissioned with IT tasks or providers of services and content that are embedded in a website. In such a case, the legal requirements will be respected and in particular corresponding contracts or agreements, which serve the protection of your data, will be concluded with the recipients of your data.

## Data Processing in Third Countries

If we process data in a third country (i.e. outside the European Union (EU), the European Economic Area (EEA)) or the processing takes place in the context of the use of third party services or disclosure or transfer of data to other persons, bodies or companies, this will only take place in accordance with the legal requirements. Subject to express consent or transfer required by contract or law, we process or have processed the data only in third countries with a recognised level of data protection, on the basis of special guarantees, such as a contractual obligation through so-called standard protection clauses of the EU Commission or if certifications or binding internal data protection regulations justify the processing (Article 44 to 49 GDPR, information page of the EU Commission: [https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection\\_en](https://ec.europa.eu/info/law/law-topic/data-protection/international-dimension-data-protection_en)).

## Erasure of data

The data processed by us will be erased in accordance with the statutory provisions as soon as their processing is revoked or other permissions no longer apply (e.g. if the purpose of processing this data no longer applies or they are not required for the

purpose). If the data is not deleted because they are required for other and legally permissible purposes, their processing is limited to these purposes. This means that the data will be restricted and not processed for other purposes. This applies, for example, to data that must be stored for commercial or tax reasons or for which storage is necessary to assert, exercise or defend legal claims or to protect the rights of another natural or legal person. In the context of our information on data processing, we may provide users with further information on the deletion and retention of data that is specific to the respective processing operation.

## Use of Cookies

Cookies are small text files or other data records that store information on end devices and read information from the end devices. For example, to store the login status in a user account, the contents of a shopping cart in an e-shop, the contents accessed or the functions used. Cookies can also be used for various purposes, e.g. for purposes of functionality, security and convenience of online offers as well as the creation of analyses of visitor flows.

**Information on consent:** We use cookies in accordance with the statutory provisions. Therefore, we obtain prior consent from users, except when it is not required by law. In particular, consent is not required if the storage and reading of information, including cookies, is strictly necessary in order to provide an information society service explicitly requested by the subscriber or user. The revocable consent will be clearly communicated to the user and will contain the information on the respective cookie use.

**Information on legal bases under data protection law:** The legal basis under data protection law on which we process users' personal data with the use of cookies depends on whether we ask users for consent. If users consent, the legal basis for processing their data is their declared consent. Otherwise, the data processed with the help of cookies is processed on the basis of our legitimate interests (e.g. in a business operation of our online services and improvement of its usability) or, if this is done in the context of the fulfillment of our contractual obligations, if the use of cookies is necessary to fulfill our contractual obligations. For which purposes the cookies are processed by us, we do clarify in the course of this privacy policy or in the context of our consent and processing procedures.

**Retention period:** With regard to the retention period, a distinction is drawn between the following types of cookies:

- **Temporary cookies (also known as "session cookies"):** Temporary cookies are deleted at the latest after a user has left an online service and closed his or her end device (i.e. browser or mobile application).
- **Permanent cookies:** Permanent cookies remain stored even after the terminal device is closed. For example, the login status can be saved, or preferred content can be displayed directly when the user visits a website again. Likewise, user data collected with the help of cookies can be used for reach measurement. Unless we provide users with explicit information about the type and storage duration of cookies (e.g., as part of obtaining consent), users should assume that cookies are permanent and that the storage period can be up to two years.

**General information on revocation and objection (opt-out):** Users can revoke the consent they have given at any time and also file an objection to processing in accordance with the legal requirements in Article 21 GDPR. Users can also declare their objection by means of the settings of their browser, e.g. by deactivating the use of cookies (whereby this may also limit the functionality of our online services). An objection to the use of cookies for online marketing purposes, can also be declared via the websites <https://optout.aboutads.info> and <https://www.youronlinechoices.com/>.

**Further information on processing methods, procedures and services used:**

- **Processing Cookie Data on the Basis of Consent:** We use a cookie management solution in which users' consent to the use of cookies, or the procedures and providers mentioned in the cookie management solution, can be obtained, managed and revoked by the users. The declaration of consent is stored so that it does not have to be retrieved again and the consent can be proven in accordance with the legal obligation. Storage can take place server-sided and/or in a cookie (so-called opt-out cookie or with the aid of comparable technologies) in order to be able to assign the consent to a user or and/or his/her device. Subject to individual details of the providers of cookie management services, the following information applies: The duration of the storage of the consent can be up to two years. In this case, a pseudonymous user identifier is formed and stored with the date/time of consent, information

on the scope of the consent (e.g. which categories of cookies and/or service providers) as well as the browser, system and used end device.

The server log files can be used for security purposes, e.g. to avoid overloading the servers (especially in the case of abusive attacks, so-called DDoS attacks) and to ensure the stability and optimal load balancing of the servers; **Legal Basis:** Legitimate Interests (Article 6 (1) (f) GDPR); **Retention period:** Log file information is stored for a maximum period of 30 days and then deleted or anonymized.
